Large	1073mm	1045mm

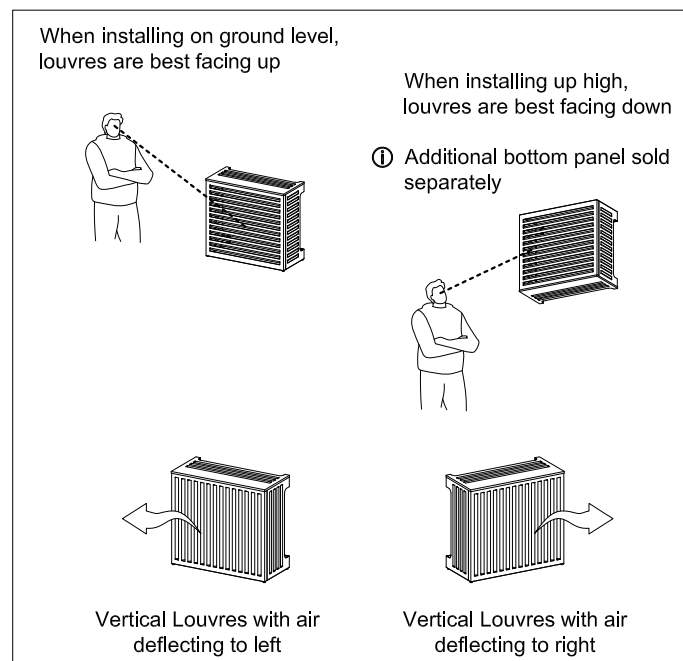

STACKING

To attach one screen to another, please use the 6 Hex head screw bolts and nuts provided.

AIR DIRECTION AND VISIBILITY

The air conditioner screens can be assembled with the louvres facing in either direction depending on your preference

WARNINGS

- Assembly should be carried out by a qualified person. Incorrect assembly may lead to the screen falling and causing injury or damage. As wall materials vary, wall anchors have not been included. For advice on suitable screw systems, contact your local hardware store.
- Do not move your condenser unit or any pipes. Any movement can cause the refrigerant to leak.
- The parts may have sharp edge. Wear cut-resistant work gloves during installation
- Do not sit on the screens
- To avoid the obstruction of airflow, ALWAYS keep the louvre openings free from debris and regularly remove build up around the unit such as dirt, leaves and grass clippings

MAINTENANCE

- The air conditioner screen is free of maintenance under normal conditions.
- Clean the product with water and a neutral cleaning agent at least twice a year to keep the screen in optimal condition
- To remove the screen, slightly loosen the bolts and unhook the screen of the wall

FURTHER INFORMATION

- More information can be found on our website www.outdoorscreens.com.au.
